A WITTY LITTLE SPEECH FROM MR. JOHNSON, OF CALIFORNIA—A RADICAL SKINNED.—In the House, on Friday, Mr. Johnson, rising to a personal explanation, referred to a remark made by Mr. Pile, in objecting, some weeks ago, to a resolution offered by him in regard to the citizenship of the Chinese in California—the objectionable expression being that the resolution was a burlesque on common sense—and said that he had not heard the expression at the time, or he should have repelled it. In reference to the gentleman's ability to set himself up as a censor, he had only to say that that gentleman ought to be courteous to members. He knew nothing of his qualifications for the high office he had assumed, but he did know, by looking at the "Congressional Directory," that that gentleman was a minister of the gospel and a brigadier-general—a surplined hero and a fighting priest. [Laughter.] He said this to the gentleman's honor, because he admired his buttons and revered his cloth. [Laughter.] The Judiciary Committee, to which the resolution was to be referred, had seen no danger lurking in it. But it was not the first time that the eyes of wisdom had been closed to threatening danger. He recollected, in sacred history, that when the angel of the Lord stood in the way of Balaam with his flaming sword, turning and threatening right and left, Balaam had no eyes to see; but the poor ass saw it, and blurted out vehemently. [Laughter.]

THE SUGAR PRODUCT.—A recent speech of Hon. Mr. Barnes, of New York, in the House of Representatives, gives some statistics of Southern crops, from which it appears that the sugar crop of Louisiana, which in 1860, was 449,000 hogsheds, was in 1866 only 39,000, and at the present time there are in that whole section but 347 sugar plantations. In the *English Market Produce Review*, there is published a full review of the sugar trade of the world for the last year, from which it appears that the United States and Great Britain are much the largest consumers of sugar, using 1,420,000 tons annually, or say about forty-one pounds for each inhabitant of those countries. The total annual consumption of France, Spain, Italy, Belgium and Switzerland, is 506,000 tons. The total annual consumption of Germany is 263,000 tons. Russia, Poland, Turkey and Greece consume only 125,000 tons, or 330 pounds per head. It is thought that, with the advance of nations in civilization and wealth, there is every prospect of a continued increase in the use of this product, as the sources of supply are so numerous and the crop so remunerative. It is to be regretted that, at a period when the cultivation ought to be extended in our country to meet the increasing demand, this, like all our other leading interests, is in such a depressed condition.

Queen Victoria is said to have cleared £10,000 by the publication of her book of mild twaddle about "dearest Albert." His death is quite lucrative to his bereaved relict. A London correspondent says they do say that Her Majesty is already worth about £4,000,000. "A wretched idiot named Neill or O'Neill (I forget which) left her £500,000 in one lump some years ago, not one penny of which, you may be sure, has her most thrifty Majesty ever touched."

Renewed persecutions of the Jews are reported in Moldavia. Their houses are burned or torn down, their stores sacked, and their persons horribly maltreated. In some cases they have been obliged to escape secretly to save even their lives. It is said that the authorities did not even attempt to prevent these outrages. All who attempted to defend the Jews were treated in the same manner.

TUNNELING NIAGARA.—A proposition is made to tunnel Niagara River, so that a railway may be laid under the river. The point selected is the narrowest crossing between Fort Erie and the American side. The bed there is of solid stratified rock, and the stream twenty-five feet deep. It was suggested in 1842 by William Wallace, engineer, and is now revived.

BRIBERY IN NEW YORK.—The Constitutional Convention has agreed to an article for the new Constitution, providing that any officer accepting a bribe to influence his official action shall be deemed guilty of felony, and, on conviction, shall be punished by five years' imprisonment and fined not exceeding \$5,000, and that any person offering a bribe shall be liable to similar punishment.

FOUNDINGS IN DEMAND.—There is a lady in Boston, it is said, who has furnished homes for over 7,000 foundlings. The demand for children for adoption in that city appears to be very great, which seems to accord with the statistics that have been given as to the decline of births among native families in Massachusetts.

The gossips at Berlin are somewhat exercised about the rumor that the famous "White Lady," the apparition which is said to announce important events in the Hohenzollern family, has again made her appearance at the royal palace. The old domestics at the palace firmly believe in all the stories told about the "White Lady."

A negro member of the Virginia Reconstruction Convention, named Hodges, favors the abolition of the Freedmen's Bureau. He "does not want negroes to stand around the hogs for a few grains of corn, but to go to work like men and make their living."

The Washington correspondent of the Boston Post says: "Baron Stoeckl was being joked this evening on the probability of Congress refusing the necessary appropriation to pay for Alaska. He jocularly replied: 'Very well; you have it, and if you won't pay for it, very good; you shall have it without pay.'"

It is related that near Dantzic, Germany, a young man of twenty-four, who has just married a widow of forty-two, has discovered, since the marriage, that his wife was his wet nurse. A French paper comments: "Thus it is! One always returns to his first love."

PENSION APPROPRIATION BILL.—The pension appropriation bill before Congress appropriates for invalid pensions, \$10,000,000; for heirs of soldiers, \$20,000,000; for navy pensions to invalids and heirs of sailors, \$350,000. Total, \$30,350,000.

Maximilian is the 102d member of the House of Hapsburg, committed to rest in the vaults of the convent of the church of the Capuchins.

Curious.—The St. Louis *Republic* is a Democratic organ, and the St. Louis *Democrat* is a Republican organ. What's in a name?

## SPECIAL NOTICES.

THE public esteem in which PANKIN'S HEPATIC BITTERS are held, is another proof of their excellence as a Tonic. They are recommended by physicians generally, and have never disappointed those who have made use of them. They give sure and speedy relief in nausea, sick headache, dyspepsia and all similar complaints. For sale by all druggists. April 14 mly Dr. C. H. MIOT, Agent.

BEAR IN MIND.—When disease has undermined the health, and the physical system has become prostrated, a stimulant that will not only strengthen, but remove the cause, should be immediately resorted to. Mental distress is also a fruitful source of the breaking down of the constitution, and the ravages of this enemy to health are truly alarming. For all such maladies HOSTETTER'S STOMACH BITTERS have been found unsurpassed. By acting directly upon the digestive organs, they remove the heavy, disagreeable feeling after eating, so often complained of by persons of a delicate temperament. As soon as digestion is restored, the patient finds his strength increasing and his general health improved.

Thousands of persons certify that it may be relied on in all cases of weakness or nervous debility attendant upon sedentary habits. The generality of Bitters are so disagreeable to the taste that they are objectionable to a weak stomach. This is not the case with Hostetter's Bitters, which will be found mild and extremely pleasant. Balsamic plants, barks and roots contribute their restorative juices to render it soothing and strengthening. Its basis is the only pure stimulant which has ever been produced containing no fusil oil, or any other deleterious element. The most careful and skillful chemists have analyzed the Bitters, and pronounce them harmless. This is scientific testimony; but the testimony of the hundreds of thousands who have experienced the preventive and curative effects of the great vegetable tonic and alterative of modern times is still more conclusive. In Fever and Ague, Dyspepsia, Biliousness, Nervous Complaints, Chronic Complaints and general debility, it is as nearly infallible as anything in this fallible world can be. Feb 12
